

The following **RWSN List** is for public use and voice worldwide in ALL governments and areas.

- \_\_\_\_\_ 1. **Real Education**, must include studies such as "Home Economics" and "Arts & Entertainment, which must be provided by ALL schools between the grade levels of 6 and 12. All schools, including homeschooled children, must teach the real FACTS about religion, science, world history, math, geography, proper dieting, and better mental and spiritual development. Mental and spiritual inspiration techniques should be taught and used in ALL schools and in all grade levels from elementary through college. It should also be a direct new part of proper medical treatment and care.
- \_\_\_\_\_ 2. The use of **GMOs** (*Genetically Modified Organisms*), should be completely STOPPED and no longer allowed in ANY food products for human or animal consumption. The world needs "REAL" healthy crops and truly organic foods.
- \_\_\_\_\_ 3. **Red Meat Consumption** must be properly addressed and directly reduced by 60% or more for each individual that chooses to remain a red meat eater. The overconsumption of red meat is one of the leading factors in causing damage to the environment and the overproduction of CO<sub>2</sub>.
- \_\_\_\_\_ 4. **Hazardous Wastes**, which are harmful to the environment, must be dealt with scientifically to reduce them to non-hazardous materials or transform them into new areas of use for fuel or other forms of SAFE, new products. No hazardous waste of ANY kind should be discarded in any manner that could eventually break-down and harm the environment itself.
- \_\_\_\_\_ 5. Absolutely No **Unnatural Ingredients**, or **Unnecessary Chemical Additives**, should ever be used/included in ANY food or drink products for human or animal consumption. This includes all oil-based pesticides.
- \_\_\_\_\_ 6. **ALL Medicines & Drugs** must be completely agreed upon as SAFE & NECESSARY and approved by a New World Health Board before ANY country or company can introduce such a product into use for human or animal needs. All new medications must also be fully tested, proven SAFE, and justified in their use to "properly" treat an illness before they can be prescribed. The number one focus of doctors should be "preventive medicine" and better medical care through good, solid advice and enforcing proper dieting and exercise.
- \_\_\_\_\_ 7. The **Legal Adult Citizens** of any country should have the right to legally vote any politician or important corporate leader out of office if they do wrong. This action should be able to be very quickly put into play by the leading majority vote and then immediately carried out by the courts without hesitation. Absolutely no one should remain in office that is doing harm or a very bad job.
- \_\_\_\_\_ 8. **ALL Fluoride & Harmful Chemicals** must be removed from ALL drinking water and food products that are made for human and animal consumption. There should be no exceptions.
- \_\_\_\_\_ 9. **New Products & Inventions** that can seriously damage humans, animals, or the planet's environment must be rejected. No product that causes serious harm can ever be allowed.
- \_\_\_\_\_ 10. The **Overuse of Fossil Fuels** where and when unnecessary needs to STOP. We need strict regulations on the misuse of too much of our planet's natural resources. People need to become much more **RESPONSIBLE** for how much of our resources they consume. Therefore, we

need new laws and new fines for constantly driving large gas using vehicles that are unnecessary for many people and wasting fuel just for the sake of "joyriding." People that are in good health should be walking, skating, and riding bikes for the betterment of their mental, physical, and spiritual health.

11. **Regrowing Diverse Forests:** We must take immediate action to STOP the use of all cemeteries and building new golf courses, major entertainment facilities, and the wasteful and unnecessary destruction of all land. We must begin to replant a proper and diverse abundance of plants and trees to filter and sustain the earth. This also goes for STOPPING overfishing and the direct pollution of our planet's natural waters. We must be logical, responsible, and wise as we move onward to care for and repair the damage we have caused.

12. **Fractional Reserve Banking** must be completely STOPPED. It is the biggest lie and threat to ANY economy in existence. There is no possible way to repay ANY interest that has been created due to the fact that the money to pay for it does not exist. Fractional reserve banking is very unfairly keeping the banks and bankers on the absolute TOP and in complete charge of all of the world's wealth. No one, nor any country, can ever get out of debt with fractional reserve banking rules remaining in play.

13. **Repressed Technology** that can better humanity and/or the world in any way must be released without any further suppression. All technology that can be used for the greater good of anything must be allowed to immediately proceed and be put into full use.

14. **Population Control** must be immediately implemented to govern and greatly reduce the current human population to less than half of its 2026 rate. The ideal population rate will eventually change and be allowed to rise once again as souls become far better educated and LEARN to eat more responsibly while living a much healthier lifestyle. Until then, the human population should be reduced to no more than 3.6 billion people worldwide.

15. **Unnecessary Products & Overconsumption** must be fined and STOPPED. The overuse of many cheap, harmful, wasteful, and unneeded products must completely end. Such cheap and very useless products have no good or long-term place in our society. These products must no longer be made or sold. All future products must be made of good, environmentally SAFE, strong, long-lasting material(s) that can last and be used for hundreds or thousands of years to come. Glass, wood, metal, clay, natural minerals, and stone are good examples of how to make very strong quality products that truly last. Long-lasting, high-quality products can be cherished and handed down for many generations to come.

16. **Areas for the Homeless:** Current buildings in good condition that are not in direct use or scheduled for use or sale within a 6-month or longer period of time should be used to temporarily house the homeless. These people need basic shelter inside of a SAFE place that is away from city streets or private properties that are currently being used by others and put all of society at risk.

17. All "**World Citizens**" have a right to use their voice and should always be heard when they have an important concern or message for their leaders.

18. Protection for all "**World Citizens**" through the UN should be a direct focus of the UN and the major governments of countries like the US, Canada, the UK, Australia, Germany, Japan,

RWSN List

South Korea, Israel, the Philippines, and so many more. Human Rights and the protection of World Citizens who wish to unite for any good and peaceful cause to better the world must be protected at all costs.

\* This **RWSN List** is always subject to being updated and can change as time goes on or issues arise in which new additions must be added. It is meant as a simple guideline for the most basic concerns of most adults and children over the age of 12 at this time to use as their common voice. Most of the issues and statements listed herein are for the people and on direct behalf of ALL people. This is a scientific and logical approach for the betterment of humanity and our world as a whole. Thank you.

>>> {Place your initials by every section that you support. Place an X instead of your initials if you do NOT fully agree with any section and do NOT support it. Only support the sections you fully agree with and truly understand. By providing your personal and correct details and signing this document after completing ALL of the lines to the far left of each section with either your initials or an X, you are agreeing to support the RWSN List in whatever sections you have stated and that you do NOT support the list in whatever areas you placed an X.} <<<

Please fill out the following very neatly and correctly with normal printed letters in blue ink only.

First Name: \_\_\_\_\_ Middle Initial(s): \_\_\_\_\_

Last Name: \_\_\_\_\_ Country: \_\_\_\_\_

Date of Birth: \_\_\_\_\_ - \_\_\_\_\_ - \_\_\_\_\_ Current Age: \_\_\_\_\_ In School Now? \_\_\_\_\_

Email or Contact Number: \_\_\_\_\_

Personal Comments: \_\_\_\_\_

Your Signature & Date in Blue Ink

# COMPLETE INSTRUCTIONS

***Do NOT Send this Page with Your Form, it is for Instructions Only!***

Make sure that you complete the form entirely with good, easy-to-read handwriting. Only use standard print with common letters, and do not write in cursive for your actual answers and words. Cursive should only be used when signing your name.

Your signature should be the exact way that you always sign your name. If you always print your name instead of using cursive when you sign, then that is indeed your signature—if it is how, you always sign.

Do NOT include your personal address, place of employment, or school information if you are a student. You should ONLY include an email address or phone number in case someone needs to contact you to ask you further questions or to simply verify that you are indeed a real person.

Make sure that you put your initials on the small line that is directly next to the number at the beginning of each section. If you do not like something about a particular section and do NOT wish to support its statement(s), then simply make sure to only place just one "X" on the line—instead of your initials.

Once your form is fully and properly completed, you can send it to the agency or multiple agencies of your choosing. The best way to send your form is by having it digitally scanned and saved as a 3-page PDF file. (Do NOT include this particular page in your file). Then email your 3-page PDF file to whomever you have chosen.

If you do not have a way to get a digital scan of your 3-page form, you can take a very good quality picture of each page and then properly "CROP" each page to look exactly like the originals. Just make sure that your pictures are very sharp, clean, clear, and easy to read. If they are blurry in any part of your handwriting or the text, you will need to retake and produce a better set of pictures to correct the issue. Your pictures must look like standard-size quality copies.

Always keep your original in a clean, safe place. And always document the time, date, and name of the one(s) that you send a copy of your form to.

\*Remember to ALWAYS remain POSITIVE & FOCUSED. Be RESPONSIBLE in your actions. Do NOT be emotional or BIASED towards others or ANY part of LEARNING. Do YOUR PART in being the best that you can be in helping to TEACH & INSPIRE others. *Make a Difference While You Can!*
